

A modern horizontal fence which provides complete privacy and security, for a lifetime. Sleek fencing has been designed by fence experts to work on any property, in any application.

Our slightly textured, satin black finish will make your garden really stand out. If you want to display vivid blooms beautifully, a black fence can work wonders. It creates a versatile canvas to showcase bright flowers in purples, reds, pinks and yellows. Rather than blending in with their surroundings, plants can shine against the dark surface.
